

AMENDMENTS TO THE SPECIFICATION:

In the drawing, delete the pending drawing sheets 1/4, 2/4 and 3/4 and replace therewith the attached "Replacement Sheets" of like sheet numbers.

In the written description, delete the pending paragraph at page 9, lines 4-8 and replace therewith as follows:

At step [[32']] 31, it is determined whether or not the initiation signal is initiating a service that has an associated shared secret PIN. If there is no stored PIN associated with the required service or the required service cannot be identified then the process branches to step 33. If there is a stored PIN associated with the required service then the process branches to step 34.
